

DATA SHEET

5050 DRIVERLESS 120V AC LED STRIP LIGHT

Product Description

The Driverless 5050 LED Light Strip is a revolution in Driverless LED Lighting technology. This strip comes ready to plug into any standard outlet. The 5050 light strip is waterproof and rated IP65 for indoor or outdoor use. Each strip is delivered to you at the desired length, up to 165ft ready to connect with no configuration or complex connections for projects like landscape lighting, commercial and hospitality lighting, kitchen splash zones, bathroom accents and more.

Each 165' Driverless 5050 Light Strip contains 2970 surface mounted high brightness 5050 Epistar LED Chips encased in waterproof silicone tubing to protect the LEDs from the elements. The silicone casing is UV resistant to protect the light strip and prevent discoloration for a long lasting installation.

Our Driverless 5050 LED Strip Lights are ETL listed therefore offering the greatest quality at an affordable price without using contaminant components, which greatly deteriorate our environment.

- ETL listed, RoHS Compliant
- Made to Order
- Fully Dimmable
- Up to 274 Lumens Per Foot
- Works at 120V AC Line Voltage
- Amazing high intensity LED lighting
- Brightest Driverless Strip Available
- Comes Ready to Plug In Right Out of the Box
- Plug In Directly to Any AC Outlet
- Available in Many Lengths Up to 165 Feet long
- Indoor/Outdoor use
- 2 Year Warranty
- No Extra Drivers, Wiring or Transformers Required
- Perfect for Decks, Garden Lighting, Pathway Lighting, Facade Lighting and More
- Each Purchase Includes Power Cord and End Cap Installed

Quick Spec.

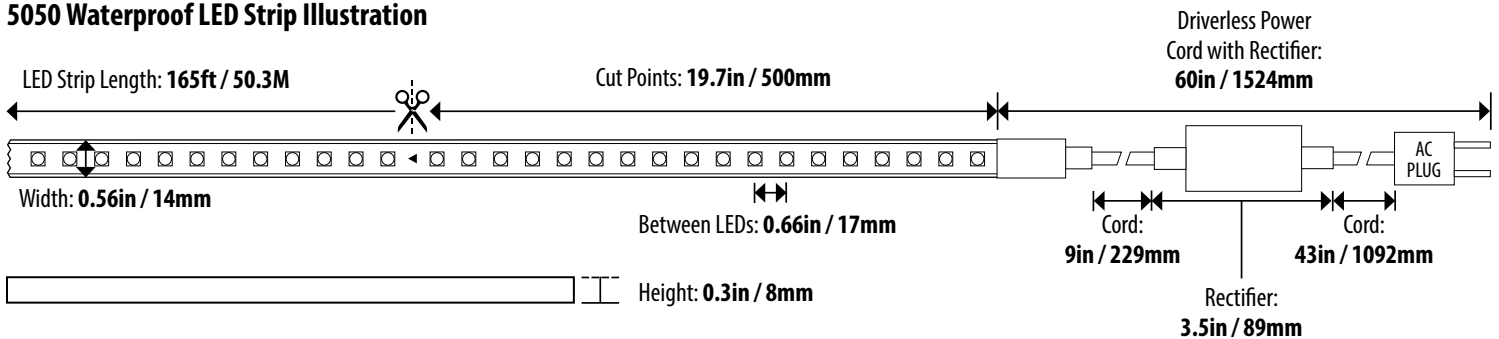

- **Fully Dimmable:** Yes
- **Voltage:** 120V AC
- **Total Wattage:** 726W
- **Beam Angle:** 120°
- **PCB Width:** 0.56in / 14mm
- **Dimensions:** 1980in x 0.56in x 0.3in
- **Working Temperature:** -20° to 140°F
- **Certifications:** ETL (US and Canada), CE, RoHS

up to
165ft

**UP TO 274+

5050 DRIVERLESS 120V AC LED STRIP LIGHT ACCESSORIES

Dimmers

120V AC 4 Zone Wireless Waterproof Dimmer Controller/Remote
SKU: LT-MONO-DRLS-RF

LED Strip Channels

39" Aluminum Channel for 5050 Driverless LED Strip
SKU: SA-DLS-5050-CHANNEL-39in

39" Plastic Channel for 5050 Driverless LED Strip
SKU: SA-DLS-5050-PLASTIC-CH-39in

LED Accessories

6" Interconnector Cable for Driverless 5050 LED Light Strips
SKU: SA-DLS-Interconnector-2in

16" Interconnector Cable
SKU: SA-DLS-Interconnector

36" Interconnector Cable
SKU: SA-DLS-Interconnector-36in

Silicone End Cap for Driverless 5050 LED Strip Lights
SKU: SA-DLS-ENDCAP

Bracket for Driverless 5050 LED Strip Lights
SKU: SA-DLS-Bracket

5050 DRIVERLESS 120V AC LED STRIP LIGHT INSTALLATION GUIDE

1. Determine where to install the LED Strip Lights and optional Dimmer.

2. Determine the measurement of area where LED Strip Lights will be placed.

3. Determine how much wire needed (Driver to Dimmer, Dimmer to LED Strips).

4. A. Cut LED Strip Lights (at cutting points) to fit or Join multiple Strips as recommended to cover installation area.

B. If strip is cut, ensure proper re-waterproofing with an Endcap and PVC cement.

5. If using channels, cut or extend them to fit size of the installation area

6. Thoroughly clean the surface where the LED Strip will be mounted.

7. A. Mount the LED Strips on the prepared surface.

B. If using channels, mount the LED Strip in the channel and mount the channel to the desired surface.

8. Complete the connection/wiring between the plug, optional dimmer, and LED Strips.

9. Power up and enjoy!

Note: If you have questions and concerns regarding the installation process. Please feel free to contact us at 425.582.7533. We will gladly assist you.

5050 DRIVERLESS 120V AC LED STRIP LIGHT WARNINGS

Do not power LED Strip still coiled in spool.

Do not bend LED Strip sideways.

Do not bend LED strips to a diameter less than 1.5 inches.

Do not fold or crease LED Strip.

Do not twist LED Strip.

Do not cover LED Strip with anything other than LED Channel Diffusers.

Do not put direct excessive pressure on the LED surface.

Do not cut LED Strips except at designated cutting points.

Do not position LED at an angled surface where it is pressed.

Do not submerge LED Strip Lights.

5050 DRIVERLESS 120V AC LED STRIP LIGHT SAFETY & WARRANTY

Safety / Disclosures

1. Install in accordance with the proper installation procedure (See pg. 3).
2. Install in accordance with your national or local electrical code regulations.
3. Suitable for wet locations (IP65 Rated).
4. Do not expose to heat more than the specified temperature ratings.
5. Only install with the required 120V AC plug.
6. Use a separate power feed for each recommended maximum run.
7. Only use cables that are certified for use with external connection of electrical equipment and rated for at least 80°C (176°F)
8. Do not mishandle product or modify beyond the guidelines given as this may void product warranty.
9. Only use with the recommended waterproof accessories and ensure complete waterproofing of any modified sections of the strip.
10. Only use the recommended waterproof accessories and wires to connect between LED strip light, driver, controller, and other devices in between.
11. The output color of the LED Strips may have slight variation from that of the pictures on this document or website due to photo rendering limitations.
12. Design improvements and modification of the products could happen from to time and we reserve the right to do these improvements necessary without any prior notice.

Warranty

The **5050** Driverless 120V AC LED Strip Lights come with a 2-year limited warranty from the date it is shipped to the customer. This warranty covers the product as long as it is used for the designed purpose and normally operated unless otherwise stated.

Please visit www.solidapollo.com/returns-amp-warranty.html for the complete warranty details on the product. For any additional questions about product warranty, feel free to contact customer support at 425.582.7533.
