Solid Apollo LED
### Where light meets perfection

DATA SHEET
CHROMA FLOW PRO RGB LED CONTROLLER/REMOTE
SKU: SA-CTRL-CHROMA-PRO-RGB

Product Description

The next generation of color changing Chroma Flow LED controllers is here with the new and even more advanced Chroma Flow PRO. The Chroma Flow PRO is a handheld wireless remote control ready to provide immediate color selection and the ability to fine tune any color to your exact specification for your color changing LED installations. Over 16,000 colors are possible and can be fully dimmed with the touch of a button. No longer do you have to select several buttons to find the exact color on your mind, now with the color wheel just one touch will immediately change the colors of any location or event where the LEDs are located. The Chroma Flow PRO is perfect for color changing RGB LED Strip Lights, RGB LED Outdoor Lights, and any low voltage (12V - 24V) 3 Channel RGB LED Lighting Fixture, the possibilities are endless. Bring amazing vibrant lighting to your under cabinet area, in cove ceilings for a splash of beautiful color, or around the deck for amazing color accents. Choose one of ten color changing programs to bring excitement and energy to any atmosphere. Also built in is a button to select one of three shades of white. Choose between warm white, daylight white, and pure white for workable light at any moment. The built in memory function even remembers the last setting used after the lights are turned off.

• ON/OFF Button
• Color Wheel
• Individual Red, Green, and Blue Control
• 3 White Temps (Warm White, Daylight White, and Pure White)

• Brightness Control
