# GECKO WIRELESS FOUR ZONE LED DIMMER WALL SWITCH/CONTROLLER

SKU: SA-CTRL-GECKO-3V-4Z

## Product Description

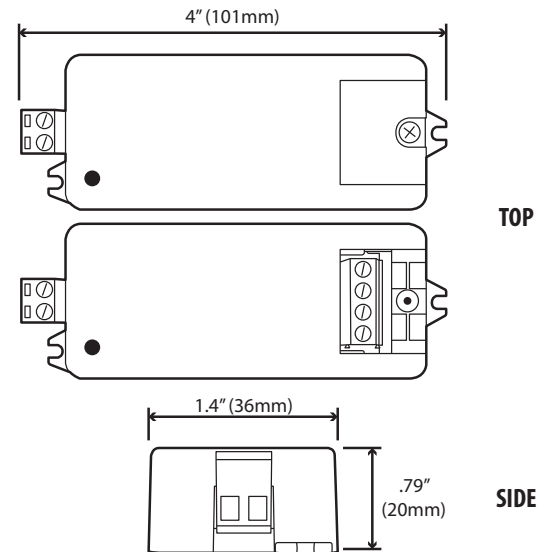

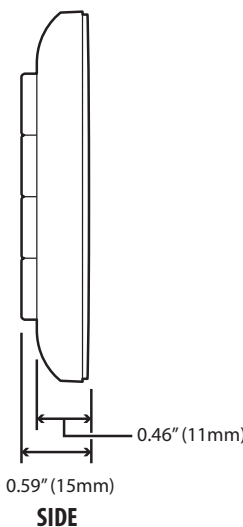

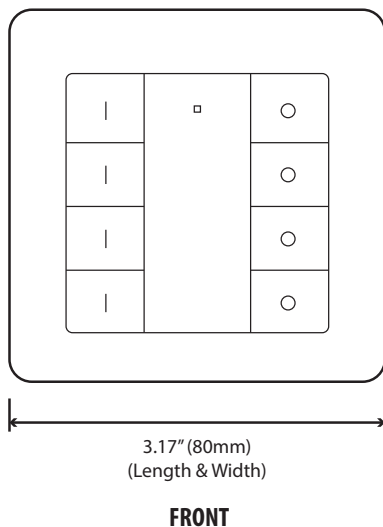

Solid Apollo's Gecko Wireless Four Zone LED Dimmer Wall Switch/Controller is designed to wirelessly control up to 4 zones independently. With no cables required, this dimmer switch can be wall mounted using double-sided tape or screws (both included). The Gecko includes the wall mounting control unit and one zone wireless controller. The wall switch can send wireless signals to the controller up to 65ft in distance. With built-in soft ramping technology, it smoothly dims single-color LEDs from 100% to 10%. The wall switch is also equipped with a memory function that allows it to remember the last brightness setting in each zone prior to powering off or losing power. Each zone is fully controlled by just two buttons - "I" and "O". Pushing "I" turns the LED fixtures in its assigned zone on and a push of the corresponding "O" button turns them off. A push-and-hold of "I" or "O" increases or decreases the brightness of the fixtures in its respective zone. It is equipped with a built-in LED indicator that shows working status when buttons are pushed. The Gecko is fully powered by a 3V DC Battery (included) that can last up to two years before needing replacement.

- Control up to 4 Zones Independently
- No Wires, Easily Sticks/Mounts to Any Flat Surface
- Wireless Installation and Operation
- Includes a 3V DC Battery for Dimmer
- Up to 65ft Wireless Range
- 100% to 10% Smooth Dimming
- Includes a Heavy-Duty Mounting Tape
- Learning Key for Wireless Pairing

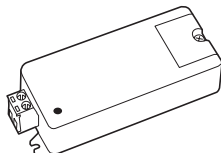

## Quick Spec.

• <b>Dimmable:</b> Yes	• <b>Weight:</b> 0.4 lb	• <b>Product Color:</b> White
• <b>Input Voltage:</b> Remote: 3V DC Battery Controller: 12-36V DC	• <b>Dimensions:</b> Remote: 3"x3"x0.59" Controller: 4"x1.4"x0.79"	• <b>Working Temp:</b> 32 - 104F
• <b>Max Power:</b> 96W@12VDC and 192W@24V	• <b>IP Rating:</b> IP20	• <b>Certifications:</b> CE, RoHS
• <b>Warranty:</b> 3 Years	• <b>Control System:</b> RF Wireless
